

**“WBS Romania SA chooses IBS Financials platform, developed by Sysgenic Group for online trading on BSE and Sibex.”**

Press release

**WBS Romania SA choose platform "IBS Financials", developed by Sysgenic Group for online trading on BSE & Sibex**

Since January 2010, WBS Romania developers benefit from the experience of the developers and analysts from Sysgenic Group in stock, using trading modules online, back-office, technical analysis, portfolio management and accounting SSIF. WBS Romania decision to choose platform “IBS Financials” comes after a long selection process, after evaluating most of the existing solutions on the market today.

"We chose to work with Sysgenic Group because of the experience accumulated in 11 years of activity on international capital markets, but mainly because the first product using the full perspective of the capital market in Romania, "iBS Financial", will be a suite of applications that will facilitate our work as SSIF, having all integrated, online trading on BSE, Sibex, specific integrated back office accounting. "iBS Financials represents the most appropriate platform from a technical standpoint to the actual requirements of customers and the most adapted solution to the current economic environment opposite the costs and benefits" said Ms. Michael Bunea, CEO of WBS Romania SA.

Sysgenic Group started to develop applications for the capital markets in Western Europe and the U.S. in 1998. By march 2009 we were not interested in the Romanian capital market, we only deployed a few applications adjacent to IFN type firms, ultra custom applications. But after a discussion with people from Goldring SA Targu Mures, they convinced us to adapt and then add components delivered by the external specific modules Romanian market. Basically Goldring SA was the first brokerage firm that has benefited from "IBS Financials". "And the results have rapidly developed upward the journey of the brokerage firm Goldring to the top sites, the results are immediately remarked by market players" - said Dragos Pahontu, CEO of Sysgenic Group.

Since January, with the launch of the new platform "Global Vision" at the Sibiu Exchange, Sysgenic Group brings the first online trading platform on Sibex specifications, shared back office BSE + Sibex, integrated accounting. Practically all actions related to daily activities of a brokerage firm, find themselves the resolution using "iBS Financial".

Cooperation between Romania and WBS Sysgenic Group will continue after completion of the implementation of IBS Financial trading applications, estimated for March 1<sup>st</sup>. WBS analysts have already offered arbitration to develop applications that will help a lot in the WBS work as "market - makers " for Dow Jones (DJIA) displayed both in USD and EUR Exchange in Sibiu. They are also developing features that will allow traders and brokers to trade directly from the WBS and foreign capital markets.

Suite "iBS Financials " includes the following modules:

- Order placement module;
- Online trading module;
- SSIF Accounting Module (BSE + Sibex)
- Back office module (BSE + Sibex)
- BSE + Sibex connectors;
- Technique analysis module;
- Portfolio Management
- Accounting for capital transactions on foreign markets (eg, FX);

WBS Romania SA is one of the important players on the capital market in Romania, both on BSE and on Sibex.

Sysgenic Group is a network of IT&C companies, which in the past 11 years has invested in training a team of professionals - economists, lawyers, market analysts IT professionals, making possible the development and market positioning of an ERP system (Enterprise Resource Planning), while offering outsourcing services to both Romanian companies and also those abroad, especially developing software for banking and financial markets trading in Europe and the United States.

Sysgenic Group is "Microsoft Gold Certified Partner" since 2005, the same year it obtained the ISO 9001:2000 Quality Management Certificate for all companies in group. Since 2007 the company is CMMi Level 3 certified, being among the top three firms in the country that have received this certification and the first outside Bucharest.
