

## PRESS RELEASE

### iBS Financials, the trading applications suite developed by Sysgenic Group, becomes the main trading platform used by the investment companies

“Starting from August, two more major capital market players have chosen to use the applications from Sysgenic Group. Starting October we will begin the implementation at another brokerage company, so we will reach a 12 % market share, considering the number of users. Our target is to reach 15 % by the end of this year” said Mr. Razvan Radu, Sales Manager at Sysgenic.

Starting from September, iBS Financials will be enhanced with a trading module for BVB Futures as well as a Statistical Analysis and Benchmarking modules.

“In 2012 we intend to increase the percentages of the traded volumes using iBS Financials”

Sysgenic specialists are currently working with experienced consultants on the development of some brand new modules for domestic capital market. These will provide brokers trading facilities on foreign markets as well as informative news-feeds for decision support. Many current customers have already expressed interest in testing them.

“iBS Financials” application suite includes the following modules:

- Order management system and on-line trading (BVB + Sibex)
- Accounting “SSIF” module (BVB + Sibex)
- Back-office module (BVB + Sibex)
- Connectors for BVB + Sibex
- Technical Analysis module;
- Portfolio Management;
- Accounting for transactions on foreign capital markets (eg.: Forex)
